# Async brainstorming

A brainstorm method tailored for async collaboration

#### INTRODUCTION

Design an inclusive and effective brainstorm with this template tailored for async collaboration. These activities are great when calendars are packed, participants can't meet live because of time zone conflicts, or when you just want to give collaborators more time to think about their ideas.

#### PREPARATION FOR ASYNC WORK

Before sharing this mural with collaborators, review the facilitation recommendations for async projects. Then, define the problem statement and fill out section 1.

Provide collaborators with a timeline for each phase of the brainstorm — then explain the activity checkpoints below. Consider recording a quick explainer video, if collaborators are unfamiliar with async collaboration.

After that, you should add your opinions by adding arrows to point ideas into other groups and sticky notes and icons to share your thoughts.

**PRO TIP**: This is a great place to use color coding. You can change the color of multiple sticky notes at once.
